20241003 Client Meeting #1

2 Oct 2024 | 9:00AM

Attendees: everyone

Notes

- Introduction to MedicRecall
  - Mission
  - Target Exams: MSRA
- Problems (Why this solution exists):
  - Rising Competition, Trainee Burden, Lack of (Reliable) Resources
- Product Introduction and Progress
  - Learning management platform → streamlining exam preparation → Exam guides, flashcard
  - Progress: Good progress with good feedback, trying to response to the feedback + done soft launch
    - Features: Exam breakdown, Resources, Flashcard tutor, Unofficial Mark Scheme, Create New Flashcards, Revision Calendar
- Objectives
  - one team on UI (G1), another on additional features (G2)
  - Revamp UI: Prepared on figma by client → more user friendly, less explanation and more professional look
  - Additional Features: quarterly mock exams, portfolio score calculator (USP), AI driven question generation (USP)
    - Portfolio score calculator: Details to be given by client but in general terms is for the doctors to calculate their portfolio score based on the things that they have done and the app will give them smart suggestions on which area to work on
    - Leveraging AI to help them to train on the guidelines, create new mock questions
  - Respond to feedback: Agile development, responding to feedback
- Timeline
  - Oct 2024 → Pick up codebase + handover from previous cohort
  - Nov 2024 → 14/11 MVP (T2 focus on interval mock exams)
  - Feb 2025 → (T2) New features and implement GPTs
  - Apr 2025 → 3/4 Final release, functional and polished product release
  - Current focus: Getting set up and onboarded

- Next steps: contracts, prev team, comms line, start :)

Q&A

- Asking about the AI Mascot → that's a plan, **but rn focus on quarterly mock exams first** → then portfolio calculator → GPT → AI Coach → Gamification features
- Give bg about the exams, pdf format → talking to local health board → update when given
- What T1 and T2 doing specifically as of rn → T1: thinking about how to implement designs on the figma, T2 quarterly mock exams and additional features → have meeting individually with the teams to discuss further

Next Step

- [ ] Sign Contract
- [ ] Meet with Prev Cohort
- [ ] Schedule Next Call with Dr Will
- [ ] Think about how to implement the new stuff
