20250127 Client Meeting

29 Jan 2025 | 9:00AM

Attendees: everyone~

Notes:

- Ask for updates
    - All resources has been scheduled in
    - First question → “I dont want to set a study schedule” → not to have frequent pop-ups again
        - Follow up from the pop-up screen → after selecting no from the first question → give them the option to not have the pop-up to appear
- Suggestions from our team: add the colour coding to the calendar between the different events → can proceed → client is quite keen with it
- Full sized mock and Official Paper follow up → some of the study days overlap with each other → try to make it not overlapping
- Testing day → asked if he has anything that he wanted to ask about the product
    - Previously have a survey → about the product → will send to us about it
- Progress update about Mini-mock
    - Calculating scores for ranking questions
    - Fully implemented the mini mock → timer, rules, flagging
        - Need the page to be implemented and to be more interactive
    - Mobile responsiveness → will think about it cause most of the users just do it on their laptop
    - Marking → have not started

JIRA BOARD

Q&A

- Should the flashcard review sessions be populated throughout the calendar, all the way leading up to the exam date or, should we leave it as it is and only have the user’s initial study sessions in the calendar? (Sam)
  Initial → but it should be implemented from the previous year

- Can you confirm that the flashcard tutor was not fully functional before (i.e the color shading wasn’t working and the date to next review was N\A on all of them) is this a priority to fix at all? And how would you like it to function? (Sam)
  Fine to keep it as it is now → the colours indicate whether to further schedule the next set of flashcards into the calendar
